Sewer Main Replacement Planned for Halifax Street

Dear Valued Customer,

The City of Norfolk has hired Inner-View Construction to perform an emergency sewer main replacement project on Halifax Street, between Liberty Street and Bainbridge Boulevard as shown on the map to the right.

The emergency project will begin during the last week of July and is expected to be finished by the end of September.

Neighborhood access will be maintained with thru-traffic detours around the work zone. Sewer service will be maintained throughout construction. Residents will be notified in advance of short-term interruptions associated with connections to new pipe.

The city and our contractor will do our best to minimize the unavoidable disruptions associated with the construction. If you have any questions regarding this construction, please do not hesitate to contact the City's on-site Construction Inspector, Mr. Sean Simmons. He may be reached by cell phone at 374-0126 to respond quickly. You may also contact Gabriel Phelps, Project Manager at 664-6737.

The Department of Utilities looks forward to completing this project which will enhance your sewer service for many years to come.

Sincerely,

Kristen M. Lentz, P.E.
Director of Utilities
